EXPERIENCE

Simplevia Technologies Inc.

Makati City, Philippines

Frontend Developer - Internship

2025

- Developed responsive, pixel-perfect user interfaces from Figma designs using Vue and Vuetify, ensuring a consistent user experience across devices.
- Integrated frontend applications with backend APIs and built reusable and maintainable UI components to support seamless data retrieval and streamline future feature development.
- Identified and reported UI inconsistencies and functional bugs, tracking issues in Jira and coordinating with the team to verify fixes.

PROJECTS

Fish Freshness Detector

2026

- Developed a responsive web application enabling users to assess fish freshness through real-time image capture and an intuitive user interface.
- Integrated the frontend with a Python-based computer vision backend to display image processing and classification results in real time.
- Designed an interactive dashboard to visualize four-stage freshness classification results using clear, user-friendly visual indicators.

Facility Reservation Management System

2025

- Developed a web-based facility reservation system featuring dedicated Admin and User modules for streamlined reservation management.
- Built responsive and reusable user interfaces using React, delivering a consistent experience across different devices.
- Integrated Supabase for user authentication, database operations, and real-time data management.

Curriculum Comparison System

2025

- Developed an AI-assisted web application for curriculum comparison and credit validation.
- Integrated the frontend with AI-powered backend services to display curriculum analysis and credit equivalency recommendations.
- Improved the user experience by presenting comparison results through a clear, interactive interface.

EDUCATION

New Era University

Quezon City, Philippines

Bachelor of Science in Computer Science

Graduated, Bachelor's Degree

SKILLS

Languages: Java, SQL, JavaScript, PHP, Python

Frontend: HTML, CSS, React, Vue, Vuetify, Tailwind CSS, Bootstrap

Database: MySQL, IBM DB2, Supabase

Tools/Platforms: Git, GitHub, Visual Studio Code, Figma, Lucidchart, Jira, Google Analytics, Vercel
